

Midwest Creation Fellowship — North —

The Wonder of the Human Voice

with
**Dr. Andy
McIntosh**

Dr. McIntosh will show that our mouths and throats are built with the unique ability for large variation in the types of sound produced. Unlike chimps, our tongues are very versatile. Our oral cavities are built for speaking and for supreme singing.

Each voice is unique, and One Voice is supreme such that even the wind and waves must obey it; the whole Creation awaits that voice upon His Return.
