“God’s funniest, yet vital, proteins”

Dan Mikal, Sr.

Kinesin & Dynein

See and hear about two of the most unusual protein groups in God’s created cell ‘tool kit’. Accomplishing the relocation of vital resources within the cell is the purpose of these special motor proteins. Their unusual design and function literally makes one laugh when seen in action. Come enjoy another look at one of God’s most unusual molecular creations, you will hardly believe it!

December 4, 2017

**St. Mark Education Center
1840 E. Grand Ave. Lindenhurst, IL**

No charge—donations accepted

6:00 pm - doors open

6:45 pm - coffee & light refreshments

7:00 pm - speaker
