

## What You Haven't Been Told About Fossils

With Dr. Brian Thomas

*Seven little-known fossil features can change the way we think about how and when fossils formed, and about how the Book of Genesis treats world history. These are the fossil features I wish someone had told me about when I was young!*

*-- Dr. Brian Thomas, of the Institute for Creation Research*

---

Saturday, November 6 2021	6:00 pm - doors open
Family of Faith Church	6:30 pm - refreshments
