

Dec. 6-7, 2021: *The Awe of God:*
why evolution could not have produced
The Wonders of Creation

with Mr. Bruce Malone

A look at the wonders of the biological world, with examples of why evolution simply does not explain these things, and how evolution directly contradicts and undermines God's Word. A few of the creatures: the sea sapphire - iridescent, then invisible! Godwits: known to migrate over ocean up to 8,100 miles nonstop! What animal is almost impossible to kill? And more!
