Midwest Creation Fellowship Statement of Faith

1. The Bible is the inspired Word of God, and is historically and scientifically accurate throughout.

2. Nature reveals the Creator's handiwork. The study of the natural world by means of the scientific method will help us understand the created order.

3. Plants, animals, and man were specifically created as independent functional units by God in six normal, consecutive days.

4. The Genesis Flood was an historical, global event.

5. The genealogies recorded in Scripture limit the maximum age of the earth to less than 10,000 years.

6. Death was introduced by the fall of Adam and Eve, making salvation necessary through the redemptive work of Jesus Christ.

Through Him all things were made; without Him nothing was made that has been made.  -- John 1:3
Midwest Creation Fellowship (MCF) is a 501(c)(3) Christian and educational organization. MCF exists to demonstrate that the Bible is historically and scientifically accurate.

“Always be ready to give a logical defense to anyone who asks you to account for the hope that is in you, but do it courteously and respectfully.”

(1 Pet. 3:15, Amplified Bible)

Why is there EVIL if there’s a good, all-powerful God? Haven’t scientists proved that nature created life? How could ONE boat hold all the animals? What about dinosaurs? If the Bible is true, where’s the evidence?
