# GIANTS!

From GENESIS PARK

The Bible talks a lot about GIANTS and they figure prominently at multiple times in biblical history. But critics mock the idea of GIANT humans as a fairy tale.

Dave's presentation details the actual evidence from archaeology and paleontology, confirming again the Bible's trustworthy message.

Moreover, the fact of GIANT organisms living in the distant past fits better within the creation model rather than the evolutionary model.

---

When: Saturday,
November 7, 2026

Where: Family of Faith Church
6645 West Steger Road
Monee, IL

What:

| | |
|---|---|
| Doors Open | 5:00 PM |
| Refreshments | 5:30 PM |
